The image shows a control panel for a boiler system. At the top left, there is a large switch labeled "HEAT WISE SWITCH". To its right is another switch labeled "HEAT WISE COIL CONTACTOR". Below these switches are five smaller toggle switches, each with a label above it: "H100A", "H100B", "H100C", "H100D", and "H100E". To the right of these switches is a large rectangular area with handwritten labels: "BOILER", "HEAT WISE", "WATER", "24 H", "WATER", "ECON", and "COIL". A small digital display at the bottom left shows the number "1578".
