Cost Effective - Portable Appliance Testing

Protecting yourself & your employees from just £1.00 per item

25% of electrical accidents involve hand-held and portable appliances

If you own a business that employs staff you must ensure that electrical appliances are safe to use, equally - if you work for an employer they **have a legal responsibility** to ensure the appliances you use are safe.

Having current PAT – Portable Appliance Testing records is one of the things **that Fire and Safety Inspectors** will ask to see on their inspection visits.

SPECIAL OFFER - 15% OFF
