The below 3 statements only apply to customers that have received Grants:

1. You are unlikely to get grants and FIT totalling €200,000 within 3 years.
2. The total value of public financial assistance you have received in relation to any economic activities – this relates to any grants received from a public body and is not limited to grants received for the installation - has not exceeded the de minimis aid level of support, and that the combination of the grants you have received and the maximum expected FITs payments (export and generation tariffs) will similarly not exceed the de minimis levels of support.
3. You confirm that you will notify Ofgem or your FITs licensee (i.e. British Gas) immediately if the de minimis levels of support are exceeded or if you think they are likely to be exceeded.
