

Everything you need in one box with our Switch Supply to Permanent Conversion Pack

A new retro fit solution to convert a switched live into a permanent feed!

This allows independent control of the lighting circuit, whilst still supplying a smoke detector with constant power. (Common Application).

CMA-SLCONV

CMA-SLCONV

CLICK SMART - SWITCH SUPPLY TO
PERMANENT CONVERSION PACK

What's In The Box

- 1 x RFSAI-61B Switching Receiver
- 1 x RFIM-40B Battery Transmitter
- 1 x CMA401 Unfurnished MiniGrid® Plate
- 1 x MD004PW 10AX Retractive Switch Module

**Are you installing more Smoke and heat
Detectors or Emergency Lights?**

Having problems getting permanent lives where you need them?

**Have you considered doing it without trunking?
or damage? or having to lift floorboards?
and then the tedious task of having to make good?**

How ? with the CMA-SLCONV...

Solution 1

Incorporating RFSAI-61B will facilitate the ability for a permanent Live supply whilst retaining control of the existing light fitting.

SMOKE DETECTORS

1x RFIM-40B
Battery Transmitter

1x CMA401
Unfurnished MiniGrid® Plate
1x MD004PW
10AX Retractive Switch Module

1x RFSAI-61B
Switching Receiver

Solution 2

Incorporating RFSAI-61B will facilitate the ability for a permanent Live supply to power an emergency light whilst retaining control of the existing light fitting. A key switch can also be incorporated to facilitate emergency light periodic testing.

EMERGENCY LIGHTING

1x RFIM-40B
Battery Transmitter

1x CMA402
Unfurnished MiniGrid® Plate
1x MD004PW
10AX Retractive Switch Module
1x MD029PW
10AX DP Keyswitch
'Emergency Test' Module

1x RFSAI-61B
Switching Receiver
