

PV Array Test Reports

Report reference number	Contractor's name and address
Installation address	
Test date	Signature
Description of work under test	Test instrument(s)

String		1	2	3	4	n
Array	Module					
	Quantity					
Array parameters	Voc(stc)					
	Ioc(stc)					
Protective device	Type					
	Rating (A)					
	d.c. rating (A)					
	Capacity (kA)					
Wiring	Type					
	Phase (mm ²)					
	Earth (mm ²)					
String test Test method: Annex-2	Voc					
	Isc					
	Sun					
Polarity check						
Earth Continuity (where fitted)						
Connected to inverter (serial No.)						
Array insulation resistance Ref IEC 60364-713-04 Test method: Annex-1	Test Voltage					
	Pos-Earth (MΩ)					
	Neg-Earth (MΩ)
